

# **NFAFG Spring Assembly 2007**

**June 1 – 3**

## **Web report**

- 1) The highlight of my NFAFG service experiences this spring was the Service Workshop. I really enjoyed the experience. Thank you for inviting me!**
  
- 2) I have not had free time to work on the web site as much as I needed.**
  
- 3) I talked with both my sponsor and my service sponsor about this problem (item 2). I suggested that instead of coming to Assembly I should stay home and work on the website. They both urged me to come here instead. They both said I needed to be with people who would love me anyway, even though I have not been able to do what I intended to do.**
  
- 4) My service sponsor asked me “When was the last time you updated the site?” I said “April”. She said, “That’s not so bad!” (She must love me very much!) But she did tell me, and so did my regular sponsor, that I have to cut back on my obligations. Even program service.**

**I hope to get back on track sometime this summer (seriously, I am booked solid through the end of July....)**

**Thanks for your support and understanding!**

**Love in Service,**

**Sandy F.**

**NFAFG web coordinator**

**(I’m not feeling much like a diva today...)**
